AUROCLAD® EXTRA GOLD PLATE 5 YEAR WRITTEN GUARANTEE

Auroclad® is a deluxe gold electrolytic plating process, differing from the usual plating in that a hard electrolytic coating of gold is applied to the jewelry in the finishing process in sufficiently heavy quantity to resist wear and tranish over an extended period of time. Auroclad® jewelry carries a 5 year guarantee on finish. Exceptional for jewelry items that have a tendency to accelerated wear through normal use, such as: bracelets, money clips, key chains, etc. The quality of Auroclad® is comparable to Sterling Silver and Gold Filled and, under certain circumstances, is even superior.

Auroclad® is an exclusive process of the L-S Line.

RHODIUM V.I.P.® 5 YEAR WRITTEN GUARANTEE

Rhodium V.I.P.® is a plating finishing process usually reserved for the finest jewelry. Rhodium V.I.P.® is an L-S exclusive in that the most exacting quality standards are applied along with a written certification that the product carries with it a 5 year guarantee against wear and tarnish.

AUROCLAD® EXTRA GOLD PLATE 5 YEAR WRITTEN GUARANTEE

Auroclad® is a deluxe gold electrolytic plating process, differing from the usual plating in that a hard electrolytic coating of gold is applied to the jewelry in the finishing process in sufficiently heavy quantity to resist wear and tarnish over an extended period of time. Auroclad® jewelry carries a 5 year guarantee on finish. Exceptional for jewelry items that have a tendency to accelerated wear through normal use, such as: bracelets, money clips, key chains, etc. The quality of Auroclad® is comparable to Sterling Silver and Gold Filled and, under certain circumstances, is even superior.

Auroclad® is an exclusive process of the L-S Line.

RHODIUM V.I.P.® 5 YEAR WRITTEN GUARANTEE

Rhodium V.I.P.® is a plating finishing process reserved for the finest jewelry. Rhodium V.I.P.® is an L-S exclusive in that the most exacting quality standards are applied along with a written certification that the product carries with it a 5-year guarantee against wear and tarnish.
